B2B PARTNER RESOURCE

International Moving Quote Desk for Moving Companies

A practical way for local and domestic moving companies to quote international moving opportunities through Forward Van Lines.

Have a client moving overseas?	You send us the shipment details. Forward Van Lines prepares the international quote. Your company may add its markup and present the final price to the client while disclosing Forward Van Lines as the international service provider.

Who This Is For

- Local moving companies, intrastate movers, domestic movers, storage companies, and small van lines.
- Movers that receive international leads but do not have their own international quote desk, destination agent network, or ocean freight process.
- Companies that want to keep the opportunity instead of turning away the client.

How It Works

1	**Submit shipment details**	Your company sends the origin, destination, volume, timing, inventory/photos, and service needs.
2	**Forward reviews scope**	We review the shipment, destination country, service requirements, and complexity.
3	**We prepare the quote**	Forward Van Lines quotes the international service scope, including applicable origin, freight, destination, and management needs.
4	**You present to client**	Your company may add its markup and present the final quote while disclosing Forward Van Lines as the international service provider.

Typical Quote Turnaround

Most quote requests are reviewed within **12-24 business hours**, depending on shipment complexity, destination country, volume, and documentation needed.

What Forward Van Lines Can Quote

- Origin pickup, if needed
- Export packing and crating
- Warehouse handling and export preparation
- Ocean freight
- Destination agent services
- Customs coordination support
- Destination delivery
- Storage, specialty items, and vehicle shipping when applicable

Origin Services: Your Choice

Your company can decide whether to perform the origin work or have Forward Van Lines include origin services in the quote.

Option 1: Your Company Performs Origin Services

If your company performs the origin work, Forward Van Lines will provide the required process, packing expectations, inventory requirements, labeling instructions, and delivery coordination details needed for the international shipment.

- Export packing standards must be followed.
- A detailed numbered inventory is required.
- Condition notes/photos may be required.
- Cartons and items must be labeled per instructions.
- Final volume must be confirmed after packing/loading.
- Prohibited and non-allowable items must be screened.
- Shipment transfer or warehouse delivery must be coordinated in advance.

Option 2: Forward Van Lines Handles Origin Services

If your company does not want to perform the origin work, Forward Van Lines can include origin pickup, packing, crating, warehouse handling, and export preparation in the quote.

Submit a Quote Request

Use the International Move Quote Request form to send shipment details to Forward Van Lines.

Form URL:

https://www.forwardvanlines.com/partners-and-affiliates/international-move-quote-request/

Partner companies are responsible for how they present pricing, disclosures, and customer-facing documents to their own clients. Forward Van Lines must be properly disclosed as the international service provider where applicable.
