IAM 2026 PARTNER MATERIAL

Partner Mission & Relationship Model

Forward Van Lines supports international movers that need a dependable South Florida operating partner without losing control of the customer relationship.

Our Mission

Forward Van Lines gives international moving companies a reliable South Florida partner for origin service, destination delivery, storage, crating, surveys, and customer-facing field coordination.

We are built to support the partner, not replace the partner. The referring mover, forwarder, or relocation company remains the relationship owner unless a different structure is agreed in advance.

The Partnership Model

- Operate as a South Florida branch-level service partner for international companies.
- Support partner sales teams with local survey, access, volume, packing, and service-scope details.
- Protect communication rules, customer ownership, and agreed account boundaries.
- Create a repeatable operating structure for one-off shipments or recurring lane relationships.

Best-Fit Partner Profile

The ideal partner already books international household-goods moves and needs trusted South Florida field execution in Miami-Dade, Broward, Palm Beach, or surrounding communities. This can include overseas movers, forwarders, relocation companies, NVOCC partners, and domestic agents with international customer needs.

Why Partners Use Forward Van Lines

- **Family-owned South Florida moving company**
- **International origin and destination support**
- **Packing, crating, storage, and survey coordination**
- **Partner-first communication model**
- **Pre-negotiated service expectations available**

Meet Forward Van Lines at IAM 2026

Use the IAM partner portal to book time with Guy Maman, John Hamilton, or Rafael Van Leeuwaarde and send partner details for follow-up.
